SUMMARY

Bilingual Computer Science graduate with technical support experience and strong problem-solving skills. Proficient in HTML, CSS, JavaScript, SQL, Java, and React, with hands-on experience in troubleshooting, documentation, and client communication. Proven ability to maintain 100% operational uptime in high-stakes environments while delivering clear technical guidance to diverse users. Seeking to leverage technical expertise and support background in an Entry-Level Support Engineer role.

EDUCATION

Lewis University | Bachelor of Science in Computer Science Aug 2022 – Dec 2024

- GPA: 3.88 | Magna Cum Laude

College of DuPage | Associate in Applied Science Jan 2019 – Dec 2021

- GPA: 3.85 | High Honors

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript, PHP, Assembly, TypeScript

Web Technologies: RESTful APIs, React.js, HTML, CSS, Flask, Bootstrap 4/5, Tailwind

Database: SQL (writing queries: retrieve, join, filter/sort, aggregate, update), MongoDB, SQLite

Development Tools: Git, GitHub, Visual Studio, PyCharm, IntelliJ

Operating Systems: Windows, Unix/Linux, macOS, iOS, Android

Libraries and Frameworks: Pandas, NumPy, Axios, Matplotlib

PROJECTS

EcoCulture Full Stack Platform | React, JavaScript, MongoDB, RESTful APIs

- Developed a donation platform facilitating 100+ item listings, promoting sustainability and community engagement.
- Implemented admin management system for uploading and editing items, supporting 50+ concurrent database entries.
- Built secure JSON Web Token (JWT) authentication flow for 30+ test accounts with zero login failures.
- Designed order management dashboard, reducing manual tracking by 70%.

NutriMath Web Application | Python, SQLite, Flask, JavaScript, Bootstrap

- Developed a full-stack nutrition tracking app logging 500+ food entries to help users plan meals.
- Created a relational SQLite database to store thousands of ingredients and support unlimited user recipes.
- Integrated CalorieNinjas API for fast calorie/macronutrient calculations with sub-second response times.
- Implemented responsive UI compatible across desktop, tablet, and mobile devices.

PROFESSIONAL EXPERIENCE

DHS Technical Support Specialist | The GEO Group | Aurora, Illinois

Aug 2022 – Present

- Maintain 100% operational uptime for 80+ active technical cases, consistently exceeding performance benchmarks for accuracy and response time.
- Perform root cause analysis on GPS and EM system alerts, accurately identifying and escalating all confirmed technical violations per protocol.
- Provide bilingual technical support in English and Spanish for dozens of client interactions weekly, improving issue resolution speed and communication accuracy.
- Document all technical interactions and resolutions in compliance with federal standards, maintaining a detailed knowledge base for common issues.
- Collaborate with cross-functional teams, including law enforcement and technical personnel, to resolve complex system issues.

Case Management Specialist | BI Incorporated (A GEO Group Company) | Aurora, Illinois

Mar 2022 – Aug 2022

- Managed technical monitoring systems for 70+ active accounts across multiple states, ensuring full compliance with supervision requirements.
- Served as primary technical liaison between users and 15+ law enforcement personnel daily, coordinating issue resolution and system updates.
- Maintained comprehensive documentation for all system interactions, technical incidents, and troubleshooting procedures.
- Developed efficient workflows that improved case processing time and reduced technical escalations.

CORE COMPETENCIES

Technical Support: Root cause analysis, System troubleshooting, Ticket triage, Prioritization, Technical Documentation

Communication: Technical writing, User training, Cross-functional teamwork, Bilingual support, Explaining technical concepts to non-technical users

Problem Solving: Critical thinking, Analytical reasoning, Rapid learning, Attention to detail

Software Development: Agile methodologies, Version control, API integration, Database design, Software development life cycle (SDLC), Debugging
